

## Qualifying Round Draw 12th UEFA European Under-17 Championship 2012/13

### DRAW PROCEDURE

**29 November 2011, Nyon, Switzerland**

Please find below details of the coefficient calculation and draw procedure.

#### **COMPETITION SYSTEM**

Fifty-three member associations will take part in the competition. Fifty-two teams will enter the competition in the qualifying round. The final round host association

#### **SLOVAKIA**

qualify automatically for the final round.

#### **COEFFICIENT RANKING LIST**

A coefficient ranking list has been established for the 2012/13 qualifying round draws according to the following principles:

- Seasons taken into account: 2008/09, 2009/10 and 2010/11.
  - All qualifying round matches (qualifying and elite rounds) have been taken into consideration to calculate the coefficients.
  - Win = 3 points; draw = 1 point; defeat = 0 points.
- For those associations which hosted a final round in any of the three aforementioned seasons, the coefficient of the 2007/08 season has been taken into account.
  - 2008/09: Germany
  - 2009/10: Liechtenstein
  - 2010/11: Serbia
- The following bonus points have been awarded (maximum 9 bonus points):
  - qualification from the qualifying round to the elite round = 3 points
  - qualification from the elite round to the final round = 3 points
  - competition winner = 3 points
    - o 2008/09: Germany
    - o 2009/10: England
    - o 2010/11: Netherlands
  - competition runners-up = 2 points (NEW)
    - o 2008/09: Netherlands
    - o 2009/10: Spain
    - o 2010/11: Germany
  - competition semi-finalists = 1 point (NEW)
    - o 2008/09: Switzerland and Italy
    - o 2009/10: France and Turkey
    - o 2010/11: England and Denmark

- The coefficient calculation for each season consists in adding the number of points obtained (including bonus points) and dividing the total by the number of matches.
- The three annual coefficient calculations have then been added together to produce the overall coefficient used for the ranking list.
- Associations with the same overall coefficient have been separated according to the following criteria:
  - 1) Higher number of matches.
  - 2) Higher coefficient from the most recent season, i.e. 2010/11 season.
  - 3) Higher coefficient from the next most recent seasons, i.e. 2009/10 and 2008/09 seasons.
  - 4) Superior goal difference from the most recent season, i.e. 2010/11 season.

### ***DRAW PROCEDURE FOR THE QUALIFYING ROUND***

The 52 associations have been split into 2 pots, as follows:

#### ***Pot A (yellow balls)***

Associations ranked from 1 to 26 (26 teams)

#### ***Pot B (red balls)***

Associations ranked from 27 to 52 (26 teams)

The 52 associations will be drawn into 13 groups of 4 teams according to the following procedure:

- Two balls will be drawn from Pot A into Group 1. The team drawn first will be put in the ***first*** position in the group and the team drawn second into ***second*** position.
- Two balls will then be drawn from Pot B into Group 1. The team drawn first will be put in the ***third*** position in the group and the team drawn second into ***fourth*** position.
- Once Group 1 is completed the same procedure will be followed to form Groups 2 to 13.

The 13 group winners and the 13 group runners-up as well as the 2 best third-ranked teams of all 13 groups will qualify for the elite round.

### ***SPECIAL CASE***

Based on previous decisions of the UEFA Executive Committee, Russia and Georgia cannot play each other in their respective countries. Consequently, if Russia and Georgia are drawn into the same group, neither will host the mini-tournament. The same case applies if Armenia and Azerbaijan are drawn into the same group.

### ***ELITE ROUND***

A draw will take place to form the seven groups of four teams. The definitive draw procedure will be communicated to the associations concerned on completion of the qualifying round.

The seven group winners will qualify for the final round.
