All media accreditation and match booking requests must be entered via FAME, UEFA's online football administration platform.

Media must produce a photo ID and copy of their confirmation email in order to collect their accreditation.

Media booking information for the quarter-finals, semi-finals and final will be communicated during the tournament via email to accredited media.

Parking

Match specific parking passes will be distributed for the semi-finals and final to accredited media with confirmed parking pass bookings.

Media Working Area

Each stadium will contain a media working area, equipped with working positions, information desks, catering, and internet connections. Instructions for connecting to the media wifi networks will be provided in each media working area.

Media tribune

The media tribunes are comprised of between 40-80 desked and 20-40 non-desked seats. Each desk is equipped with power supply and internet connections.

The tournament seating in the media tribunes will in principle be done on a first-come, first-served basis. However, for heavily-subscribed matches, UEFA reserves the right to impose a seating plan.

Upon arrival at the stadium, media are advised to contact the welcome desk in the media working area, where they will be allocated match-specific media tribune access sticker.

Opening hours

Standard opening hours for stadium media facilities are:

| | Media Working Area | Media Tribune |
|------|---|---|
| MD-1 | From two hours before the first media activity in the stadium until two hours after the end of the last media activity. | Opening one hour before the start of an official training session. Closing 15 minutes after the start of a closed training session, or at the end of an open training session. |
| MD | Open from three hours before kick-off until two hours after the final whistle. | Open from three hours prior to kick off until two hours after the final whistle. |
| MD+1 | Closed | Closed |

Catering

Basic catering will be provided for media and photographers as follows:

- MD-1: from one hour before the first media activity in the stadium until one hour after the last media activity
- MD: from two hours before kick-off until two hours after the final whistle

Press conference room

In all stadiums, press conferences will be held in purpose-built press conference rooms. MD-1 and post-match press conferences are open to all accredited media.

Translation will be provided into English by the team press officers or team liaison officers.

Mixed zone

A mixed zone will be set up at each stadium on the players' route between the dressing rooms and the team buses.

Non-rights holders

Non-rights-holders (NRHs) have access to all MD-1 media activities.

On matchday, NRHs must deposit their cameras upon arrival at the stadium. These cameras will be securely stored during the match and can be collected after the end of the match (for the Final, at the conclusion of the trophy ceremony). NRH personnel will be seated in seats without desk.

Any NRH who are found to be filming the match will be escorted from the stadium immediately and blacklisted with negative repercussions on future accreditation allocations for UEFA events.

Press kits

Press kits will be produced by UEFA for each match and will be available in the media working area. In the Group Stage press kits will be produced only in English, with multilingual versions available for the semi-finals and final.

Facilities for photographers

Working spaces will be available for photographers in all venues, either in dedicated photo working areas or part of media working areas.

Accredited photographers must collect bibs on a match-by-match basis. These can be collected from the photo or media working area in return for a deposited ID card. Bibs must be returned after each match.

Photographers may claim a pitch position on a first-come first-served basis. Photo positions will be clearly marked around the pitch, located principally behind the advertising boards along the goal-lines and equipped with power and cabled or Wi-Fi connectivity.

Photographers will also be provided with chairs.

Remote cameras may be used behind the goals in all stadiums in the marked areas. Tripods must not be higher than 10cm and cables must be passed under the advertising boards.
