

WE CARE ABOUT FOOTBALL

**2009-11 European Qualifying Competition  
for the 6<sup>th</sup> FIFA Women's World Cup**

**COEFFICIENT RANKING LIST**  
(paragraphs 5.05, 5.06 and 5.13 of the competition regulations)

For seeding purposes, a coefficient ranking list has been established according to the following principles:

- The associations are classified on the basis of results achieved in the 2009-11 UEFA European Qualifying Competition for the 6<sup>th</sup> FIFA Women's World Cup and also the qualifying competition of the 2007-09 UEFA European Women's Championship.
- To determine the association coefficient rankings, the total number of points obtained in the qualifying competitions in question (group matches only) are divided by the number of matches played.

If two or more associations have the same coefficient, the following criteria apply, based on the results obtained in the most recent qualifying competition:

- a) coefficients from the matches played by the teams concerned
- b) average goal difference
- c) average number of goals scored
- d) average number of away goals scored
- e) fair play ranking
- f) drawing of lots

No.	Country	WOMEN'S EURO 2009			WWC EQ 2011			Combined		
		Points	Matches	Coeff.	Points	Matches	Coeff.	Points	Matches	Coeff.
1.	Sweden	24	8	3.000	22	8	2.750	46	16	2.875
2.	France	21	8	2.625	30	10	3.000	51	18	2.833
3.	Norway	22	8	2.750	22	8	2.750	44	16	2.750
4.	England	20	8	2.500	22	8	2.750	42	16	2.625
5.	Denmark	21	8	2.625	20	8	2.500	41	16	2.563
6.	Italy	18	8	2.250	22	8	2.750	40	16	2.500
7.	Ukraine	19	8	2.375	17	8	2.125	36	16	2.250
8.	Switzerland	11	8	1.375	21	8	2.625	32	16	2.000
